

Call Maltby's Tree Service and Landscaping to see if your trees are at risk during a storm

Most Florida home and business owners are familiar with the damage that can come from severe storms. If not, it's important to brush up on the topic. Professional tree trimming or pruning helps make trees more stable and stronger as well as healthier, all of which makes them more competent in the face of strong winds.

"One of the greatest dangers to life and property during severe storms or hurricanes is posed by falling trees and limbs. Larger trees in leaf will catch more wind and be subjected to increased stresses. Preparing trees for a high-wind event should be done in advance of the storm season. However, it's not too late to start preparing now, or before the hurricane warnings begin. To help lessen some of these dangers, it's important to have a qualified tree care provider evaluate your trees. Doing this will help determine potential weaknesses and dangers," noted James Maltby, owner and operator of **Maltby's Tree Service and Landscaping**.

To have safe and healthy trees, it's essential to have your trees inspected and pruned annually. This can be done quickly and will save you money in the long run. In most cases, maintaining trees is far less expensive than removing and replacing them. This can help assure that your trees are healthy and reduce any risk of storm

Now is the time to have your trees professionally trimmed in preparing for a storm. Call Maltby's Tree Service and Landscaping today at 321-689-5866 to schedule your free residential or commercial evaluation and estimate.

damage to your home or property, stated Maltby.

Trees at risk that need professional service can have:

- Dead or partially attached limbs hung up in higher branches
- Hollow or decaying areas on the trunk or main limbs
- Peeling bark or gaping wounds in the trunk
- Branches that are rubbing each other or rubbing wires on your home or business
- Branches that are touching or laying on your rooftop
- Low hanging branches that obstruct the street or sidewalk
- Branches that appear diseased or insect infested

If you have a tree that has grown too large for your property, is damaging your foundation, or is in danger of breaking or falling on the roof of your home, this can be a major concern.

Before these things happen, call **Maltby's Tree Service and Landscaping** today. Their trained professionals evaluate each situation and offers the best in customer service. They pride themselves on a fast response time, service and the best prices guaranteed.
