**By Marshall Tempest** Apopka Chief Staff

The Apopka Blue Darters Boys' soccer team had a tough time last week as they tied their game against Edgewater (1-1) and lost in their game against Olympia (2-1). This week the Darters faced the Horizon Hawks on Tuesday, December 19, and the Lake Mary Rams after press time on Thursday, December 21.

The Darters faced the

Hawks on Tuesday, December 19, in a frigid 49 degrees Fahrenheit match that was a shootout from the opening whistle. Apopka couldn't take home the win, falling to the Hawks 2-1. The game-winning goal wouldn't come until the final 10 minutes of the match from a free kick right outside of Apopka's box.

The game was a battle for possession with the Hawks taking the first half and keeping the ball pre-

had a handful of shots on goal in just the first ten minutes of the game, but thanks to Apopka's goalkeeper, Daniel Acosta, none of them reached the back of the net.

Daniel Acosta was as active as a goalkeeper can be, considering the ball was always 30 to 40 yards away from him in the first half. He played the ball well and challenged Horizon players every time they attempted a shot inside the box As the first half got

moving, Apopka's offense began to find chances on the other side of the field focusing on quick counterattacks after Horizon failed to score. The first goal of the game was a header from Apopka's Rashad Hemissi in the 18th minute of the match coming off a cross from the left wing of Horizons lower third. After their first goal,

Apopka's offense found their rhythm and kept their foot on the gas, finding more and more chances in the box. Horizon's goalkeeper, Julian Filoni, did well to save some very nice shots from Apopka's

attacking front. Filoni had eight saves in the game with only one goal allowed.

Apopka had another huge opportunity for the goal on another cross sent into the box where Apopka's Aiden Acosta made a great header but was saved by Filoni.

Horizon caught the Blue Darters' defense sleeping and made quick work of it with a speedy counter, getting to the other side of the field in seconds and scoring their first goal in the 20th minute of the match.

Apopka's Daniel Acosta was working overtime making saves as Horizon held most of the possession in the first 20 minutes of the match. Horizon's offense was more tailored to a slow-building attack focused on keeping possession on their opponent's side of the field while trying to create open space and mismatches near the box.

Even with Horizon holding most of the possession in the first half, Apopka was making do with what opportunities they did have on offense with three shots on goal in the first twenty minutes.

In the first half, Horizon continued to pepper Daniel Acosta in the goal, but he continued to shut down their efforts. In perhaps the best save of the night, Acosta went full extension to stop a shot in the 28th minute of the match.

Other than Acosta, Apopka's Jacob Davis was all over the field all night long making plays. He was the difference maker in the midfield for Apopka navigating around groups of Hawks to get the ball to open space or an open attacking Darter, while also playing great defense in the upper midfield.

As the half came to an end, Apopka had some great shots on goal as they tried to will themselves ahead before the halftime whistle.

The second half was a change of pace and possession. Apopka was holding possession much more than Horizon and staying in Horizon's lower third. The Darters had two shots

The Apopka Blue Darters picked right back up from where they left off last season, winning the Grenadiers Girls Grappler Classic. Claiming the 2023 championship was also the second consecutive for Apopka.

"Obviously, a satisfying start to the season," Apopka coach Bruce Mc-Millian said. "Placing among the top-five was a legitimate and realistic expectation. Winning the whole meet was something of a surprise and unexpected though. Most teams had significantly more competitors. Quality over quantity: not wasting opportunities to earn points has been the M.O. and carried us to victory again."

"What we have done so far does not mean a repeat (from 2023), let alone bettering, though," Mc-Millian said. "There are a number of steps before the last. Then this season there is also much less room for bettering the finish of the last. However, the start we have put together is the first step.

"We have done as much as possible to position ourselves at this point in the season for a better result at the state championship meet though," McMillian said "Even better than perennial top-10 at the state championship meet. We placed third at the state championship meet last season, and this season, the results are equal at the same juncture."

The sport of girls wrestling has also taken on a higher profile and equal status at the same time as Apopka's even better start than last season's finish.

## Apopka Boys Basketball splits games against Warriors, Pioneers

By Marshall Tempest Apopka Chief Staff

The Apopka Boys' basketball team split their two games after press time last week, beating the West Orange Warriors 67-37, who are now 1-8, on Wednesday, December 13, and falling to the Oak Ridge Pioneers 65-55, who are now 6-2, on Friday. December 15. The Darters were 5-5 after their loss to the Pioneers and sat at fourth in the 7A District 3 standings on Monday, December 18, under Evans (5-3), Lake Brantley (5-4), and Ocoee (5-4), respectively.

Apopka vs. West Orange

Apopka shot great from the field all night, as a team they shot an impressive 50 percent from the field. Apopka had 54 shots and drained 27 of them with six of those shots coming from beyond the three-point line. Thirtyeight of Apopka's points came from inside the paint. and the Darters also had 20 points coming from turn-

overs and 22 transition points coming from the help of Apopka's 10 steals and West Orange's 20 turnovers.

Apopka had another amazing night on the glass bringing in 31 rebounds with 10 of them coming from the offensive glass. It was also a night of assists for Apopka as their offense was moving the ball beautifully resulting in 17 assists. The Darters had four players with eight or more points, starting with Apopka's leading scorer: Jahi Bowden who had 15 points, six rebounds, one assist, and one steal; Larson Taylor had 14 points,

five rebounds, two assists, and one block; Jermichael Johnson who had eight points, two rebounds, three assists, two steals, and one block; and Daren Leath who had eight points, two rebounds, and one steal.

West Orange is going through their own trials

and tribulations this season with a less-than-spectacular record, but we got to see the Darters stretch their wings a bit offensively and got to see some of the Darters who don't get much playing time work on their game. Apopka shot great from the field and played great on both sides of the ball, but got off to a rocky start.

While Apopka was ahead the entire game and ended the first quarter up 16-13 it seemed that they were playing down to their opponent.

The Darters were up 9-2 with 3:56 left in the first quarter and started to play differently. The rest of the first quarter was the Warriors' show. West Orange went on an 11-7 run to end the quarter and

showed that they aren't a team you can beat by just showing up. Apopka started to struggle on defense on the interior and on the glass both offensively and defensively.

Coach Scott Williams was disappointed in the way the boys were playing at the end of that first quarter. Talking to the boys on the bench Williams said that they were "playing the score" and not their game plan.

The second quarter was a clinic from the Darters as they kept the Warriors to just five points while scoring 16. Apopka shot 6-for-14 from the field in the second quarter and brought in two three-pointers. Apopka kept West Orange to just 1-for-14 shooting in the second quarter.

The Darters' went on a 9-2 run in the last 3:30 of the first half. Williams talked with

the boys about keeping their foot on the gas and not getting complacent with the score during halftime.

"The talk was about

finishing what we started, about not letting them off the mat.'

The third quarter was another great showing from the Darters as they followed William's advice and kept their game at an elite level regardless of the competition. The third quarter was the best for the Blue Darters as they brought in a healthy 24 points and kept the Warriors to just nine.

**Coach Williams** praised Samuel Bell's performance in the opening minutes of the second half, saying he set the tone on both sides of the ball early coming out of the locker room and took his game to "another level".

"Sam Bell was magnificent in that first fiveminute stretch in the third quarter, and he just set the tone offensively and defensively and got everybody involved. When your lead guards are just in total control of the basketball game it makes a big difference."

Apopka would continue their great play into the fourth quarter when

### Williams brought in some Darters who don't get much playing time onto the floor to work on their skills. Even with the starters and main players on the bench, Apopka continued to play at the same level on the glass, with their ball movement, and their interior and perimeter defense. Apopka ended the

fourth quarter up 67-37 after scoring 11 in the fourth and keeping West Orange to just 10 points.

### Apopka vs. Oak Ridge

The Blue Darters' home bout against the Pioneers ended with Apopka trailing 65-54. The Darters fell behind early in the first quarter and couldn't come back from the deficit. The Pioneers outscored the Darters 16-3 in the first quarter, a deficit Apopka would spend all night fighting their way back from.

Apopka did show their determination in the following quarters and even outscored the Pioneers in

## Last week's weather meant the fish would be hard to catch

Hello Folks,

I wish I could tell you that the fishin' is fantastic, but I cannot tell a lie.

As you all know, last weekend we had lots of rain and a bunch of wind. Lots of folks didn't get on the water due to the weather last weekend. We had that front come to town and it's been windy and bluebird

skies, since then. Hopefulbetter real soon. If the wind settles down, I'm sure those ole specks are gonna start bitin' again.

Lake Monroe and Lake Jesup should be producin' some nice stringers of specks again real soon. Kyle at Bitter's B&T reports that the folks in his area didn't go fishin' due to the bad weather we had over the weekend.

put people's lives in jeopardy when the weather is bad. If you have ever been fishin' on a Florida Lake and a thunder storm comes up real quick, you know how rough that lake can get in just a short period of time. I have spent plenty of time under a dock or in a Marina waitin' out a storm. As everyone knows, we do live in the lightin' capital of the world, and the last place you want to be is on the water while it's lightin' and thunderin'. It can be pretty scary to say the least.

On Monday, December 11, the FWC announced that they were goin' to hold an open house and invite the public to a Harris Chain

Open House. Attendees will have the opportunity to learn about fish, wildlife, and habitat information on the Harris Chain. The event will be held on Wednesday, January 24, 2024 from 3 till 8 p.m. at the Venetian Center, located at 1 Dozier Circle, Leesburg, 34748. This is an informal open housestyle event, and attendees are welcome anytime between 3-8 p.m.

The bass fishin' is still doin' good on the Butler Chain. I mentioned last week my buddy Rich winnin' his club tournament on Sunday. Well, before the rain came in this past Saturday, Rich took his neighbor out to the Butler Chain, and they caught and released over 30 bass while fishin' with swimmin' jigs over the submerged hydrilla and eelgrass beds. Rich's neighbor had never had a day like that on the water.

In the second half, Apopka's defense somehow got even better shutting down the Hawks' attack in the midfield more often than not and suffocating the ball when it got inside their box.

With a new half came a new goalie for Apopka, bringing in a familiar face and name if you follow Darter football: Hayden Kosicki. Kosicki is the prototype of an elite goalkeeper. Kosicki didn't see half as many shots as Acosta did in the first half but still made proper saves. It was a slow half for Horizon offensively as Apopka kept the ball deep in Hawks territory for the majority of the second half.

Even with the great play and plethora of shots on goal from Apopka in the second half, not much happened until the final 15 minutes. Horizons' attack began to build up their momentum again getting more runs through the Darter side.

After keeping the ball on Apopka's lower third, it was a freekick awarded to the Hawks just feet outside of the Darters' box that would be the final points of the game.

In the second quarter, the Huskies began moving the ball up court through Kitts, who had surprisingly good ball handling skills for a 6'2" forward. Kitts looked for shots in the post hoping to use her size to get tough for Apopka because high percentage looks inside. It worked.

Apopka soon had to begin doubling Kitts which left other Huskies open on the wings for open looks or chances to rush the basket. Even with these open looks from doubling Kitts' Apopka did much better defensively in the second quarter, especially inside.

The Darters also focused heavy pressure on the Huskies' ball handler, who more often than not was Kitts, leading to steals and turnovers, giving Apopka transition opportunities. The first half ended with Apopka still trailing Hager-

## **Difference of opinions is destroying women's sports**

It's becoming harder and harder for high school and college girls to compete against other females without intrusion by transgender-identified males. To see just how far we have fallen in refusing to recognize the fundamental injustice of allowing these males to compete against biological females, consider some historic scandals in the Olympic Games.

Once, everyone from the organizers of the Olympics to every national athletic association to every high school gym teacher understood that the biological differences between men and women gave well-trained male athletes an inherent advantage over their similarly well-trained female athletes. These biological distinctions are not insignificant.

Males have greater lung capacity, larger hearts, more bone density, and more muscle mass advantages which allow them to jump higher, throw further, run and accelerate faster, and punch harder than females. One recent study revealed that in the sports where upper body strength dominates, males possess more than a 50 percent athletic advantage over their female counterparts. This athletic gap emerges around age 12 when males experience a 20-fold boost in testosterone.

### Title IX and the Biden Administration's Assault on Women's Sports

That is why the rules governing sporting competitions—especially those considered to be at the pinnacle of athletic achievement such as the Olympic Games long maintained strict prohibitions on female athletes taking male hormones and other kinds of performance-enhancing drugs for both male and female athletes.

During the 1960s through the 1980s, East German Olympic athletes "swam their way to glory, winning Olympic gold medals, setting world records." It was only after the fall of the Iron Curtain that the secret to their success was revealed: an elaborate, organized doping system that fed hormones and steroids to the athletes, including the female swimmers, intended to enhance their performance and give their female swimmers a distinct athletic advantage of the kind only found in their male counterparts.

The Russian government has been caught doing the same thing multiple times with the same hormone-doping system as the East Germans had. Last year, Kamila Valieva, a 15-year-old Russian figure skater who won a gold medal in the Beijing Olympic Games, tested positive for Trimetazidine, a drug classified by the World Anti-Doping Agency under "hormone and metabolic modulators."

Today, liberal pundits seem to have forgotten history. They're willing to turn a blind eye to the universal disapproval of hormone use at all levels of national and international athletic contests.

It's not hypocrisy, apparently, when we normalize allowing male-bodied athletes with overwhelming athletic advantages to compete in women's sports, but sanction female athletes like

Marion Jones, a standout winner at the 2000 Sydney Games, for using performance-enhancing drugs. Jones admitted in 2007 to lying to federal agents about her use of those drugs, spent six months in jail, and was stripped of all five of her Olympic medals by the International Olympic Committee.

But now a new rule has emerged in sports: men that psychologically feel like women can compete with all the physiological advantages rendered them by accident of birth against real women. However, real women get the book thrown at them for taking performance-enhancing drugs that give them the same advantages that biological males develop naturally in contests against their own.

### Hiding Students' Gender Identities From Their Parents Is Immoral

So much for equality. The future of female athletics

is on unstable ground. The inclusion of men competing as women is greeted with nods of approval from liberal elites, cultural Marxists, leftist politicos, and gender ideologues at home and abroad. The evisceration of spaces where the enduring differences between the sexes are most on display is, for trans-evangelists, their brass ring.

As goes sport, so goes the rest of the gender contagion. This generation's greatest "doping" scandal seems to be just getting started, but it is already cheating high school and college girls out of medals, awards, and the athletic scholarships they use to pay for their educations.

Now is the time to divest fake females of their titles, and call an end to athletic fraud. It is a matter of common sense, fundamental justice, and the important principle of fair play in sports that—up until now—has been a hallmark of our culture.

## GENERAL SERVICE: AUTO-BASICS

Auto technicians say the key to keeping vehicles running well – today and down the road – is routine maintenance. Yet many drivers tend to stall when it comes to keeping up with some everyday auto-basics. A recent survey by the Car Care Council found:

25% of cars had low or dirty engine oil. 13% had low or contaminated brake fluid. 18% had dirty air filters. 17% had inadequate cooling protection or low coolant levels. 16% needed new windshield wiper and 27% had low or contaminated washer fluid. 18% needed new belts. **Overall, 89% of vehicles were** in need of at least one service or repair. MAINTENANCE - YOUR PROTECTION!

## Are spousal benefits always a factor?

Ask Rusty -

Dear Rusty: Both my wife and I have worked our entire lives. When we retire, will we both be entitled to full benefit amount each, or will there always be a spousal factor in there? Also, how are those benefits calculated - based on your highest salaries throughout your career, or your ending salaries when you retire? Signed: Looking Ahead

Dear Looking: Prior to retiring from work is a smart time to investigate how Social Security will fit into your golden years. To answer your second question first, each person's personal SS retirement benefit is based on the highest earning 35 years over their entire lifetime, with earlier years adjusted for inflation. The person's Average Indexed Monthly Earnings (AIME) - essentially the person's lifetime average inflation-adjusted monthly earnings amount - is first determined. Using AIME, the person's Primary Insurance Amount (PIA) is calculated using a special benefit formula which will yield a PIA of about 40% or less of the person's AIME. The PIA is the amount received if benefits start in the month full retirement age or "FRA" is attained (as you can see, Social Security likes acronyms).

both born after 1959, FRA for both of you is 67. The age when you claim benefits, relative to your FRA, determines how much you'll get. Claim before FRA and your benefit is reduced; claim after your FRA and your SS retirement benefit will be more (up to age 70 when maximum is reached); claim at your FRA and your benefit will equal your PIA – the full (100%) amount you've earned from a lifetime of working.

Spouse benefits only come into play if the PIA for one of you is less than 50% of the other's PIA. In that case, the spouse with the lower PIA gets a "spousal boost" to their own SS retirement benefit when claimed. The amount of the "spousal boost" will be the difference between the lower PIA and half of the higher PIA, but the amount of the "spousal boost" (as well as the person's own SS retirement amount) will be reduced if benefits are claimed before full retirement age. Any time SS benefits are claimed before full retirement age, those benefits are permanently reduced.

If one spouse is entitled to a "spousal boost" from the other, the spousal amount will reach maximum at the recipient's full retirement age. Thus, if the lower earning partner's highest benefit will be as a spouse,

Since you and your wife were then that spouse should not wait beyond their FRA to claim. If, instead, the lower earning partner's own SS benefit at age 70 is more than their spousal amount, waiting longer than FRA to claim could be prudent, depending on life expectancy.

> So, as you can see, deciding when to claim Social Security benefits should consider many things, including financial need, work status if claiming before FRA, marital status, and life expectancy. But it is your lifetime earnings which determines your SS retirement benefit amount, and it is how your FRA entitlements compare to each other that determines whether spousal benefits will be paid.
